big scandal what is haponing in Portugal. We have no direct access to the reality of this situation but there is a clear intention of covering up the facts.

We send you a copy of a letter send to IFUAM in the sequence of a request of information from them. It gives you our position. I asked Bernhard Geier for your contact and for your report. He said he would send it, but we have not received until today.

Many of the bio farmers in Portugal are very angry with this. All the situation is very unfair to many of the bio farmers in Portugal (the real ones). AGROBIO is independent and is doing a good job at the control level. We don't want to be put at the same level off the APPA-SENDA. It is needed a complain at Brussels level. We have already informed our agriculture ministry about this situation but they are not informed.

The farm you visited, we don't know it at all. Your report does not surprise us.

Please be in contact with us.

Yours sincerely,

Angelo Rocha
